

FINANCE OS

Sales Plan

From first enquiry to settled loan and referral.

01

The pipeline

Every enquiry is captured the moment it arrives and routed to the right next step. No 9pm lead waits until noon.

Stages are explicit, and the system forecasts settlements from the live pipeline.

02

Follow-up system

Day 1, day 3, day 7 sequences fire automatically across SMS, email and social, so no opportunity goes cold while you focus on advising.

Speed-to-lead is the single biggest lever ? first reply wins the conversation.

03

Reactivation

Past clients are nurtured on a schedule and re-engaged when rates move, lifting refinance volume and referrals.

A calm, consistent cadence keeps you top of mind without manual effort.

04

Targets & cadence

Set weekly power-hours, a monthly nurture review and a quarterly forecast.

Placeholder targets sit here until your numbers are dropped in.
